

Due to the rapid spread of the coronavirus we will be implementing some additional guidelines and restrictions regarding the use of technology in an attempt to help stop the spread of this and other viruses.

- Beginning March 16th loaner chromebooks will no longer be freely available at the high school. If a student needs a repair we will work with them individually to provide a device.
- Keyboards and mice will be removed from all PCs used in common areas. With the number of users on these devices it is impossible to sanitize them as frequently as we would like.
- Students should use their assigned chromebook or iPad and NOT share with others.
- Teachers, please do not allow students to use your PC.
- iPads that stay at school will be sanitized over Spring Break.

In a normal year, we struggle to keep community devices sanitary. In our current environment, following expert advice to fortify cleaning, we have neither the staff or supplies needed to adequately mitigate the threat. So, removing some of the common areas that breed nasties is a big step in the right direction.

If you have questions or concerns please contact me or Mr. Chase.
